FIND THE KING'S ANIMALS

As entertainment King Frederik IV established a menagerie in the Royal Gardens, populated by exotic birds and wild animals. It featured bears, wolves, roe deer and rabbits. Unfortunately, the King's animals have escaped and hidden themselves in the town. Can you find them all on your way?

ABOUT THE PROJECT

Our Adventure Trails take you through the historic buildings, streets and landscapes of Fredensborg - each with their own character. The trails are part of an urban development project and intended to increase the visibility of the Royal town, bringing together the town's activities and cultural offerings. The marked spots also narrate well-known and not-so well-known stories about selected spots to the town's residents, visitors and tourists.
